

Email and resume submitted to ACFA on January 21, 2015

To human resources,

My name is Farrah I'm from quebec. I grew up around horses. I have been competing in many events from Barrel Racing to Ranch Versatility including Cutting, Reining, Saddle Bronc Riding and Team Roping. I also work as an assistant trainer in Alberta for a cutting facility so I have good horsemanship skills. I would like to work as a health/pen rider for your feedlots and I already have horses that I can use for it. I have college degree in Animals Productions technology and I work on lots of farm.

I am looking forward to find a job that can combine my field of studies: animals productions and my passion for horses. What can be more beautiful then make your living from cattle and horses.

I have a truck and a trailer with a living quarter that I can use in the summer time. I have 2 horses but I can buy another if needed. I'm willing to learn and I'm a hardworking person. I actually have a full time job as an farm animals nutritionist. I milk cows on my clients farm when they need and I train horses. I like to be busy working cause I don't have any other hubby then farming and riding.

If you need any other details feel free to contact me

Thanks

Farrah Lapalme-Lafleur
