Reference Letter

Maksym (Max) Varvarovskyi

July 1, 2014

To Whom it May Concern:

I am pleased to provide a reference letter for Maksym Varvarovskyi whom I shall refer to as Max in the following letter of approval. Max arrived at our facilities Rocky Mountain Holsteins www.rockymountainholsteins in March of 2013 and stayed a complete year to March 2014 when his one year working visa expired. Our facility is an advanced Holstein genetic production facility close to Calgary, Alberta, Canada where Max was given very significant duties and responsibilities. This involved the care of cows, calves and equipment. Everything from milking cows and maintaining high milk quality control and animal health to young calves and heifers. Feeding and cleaning and running large tractors, bobcats etc. Max's formal training is in equipment repair and maintenance.

Max has many attributes—great interpersonal skills, excellent English, he is very responsible and conscientious. His work ethic is very very strong and on many occasions worked for several days without significant time off. He integrated very well into our North American culture and he was a pleasure to work with and have in our homes. My mother who is 85 and lives on the farm grew very fond of Max and had him into her house for many meals and visits. Max in return was very kind to her and cleaned the snow from her walk ways and brought her the mail, cut her hedges and grass when it was not part of his job with Rocky Mountain Holsteins.

Max doesn't smoke and rarely if ever consumed alcohol. We loved having Max as a strong member of our team and regretted that he had to end his tenure with us because of his work Visa expired.

I absolutely recommend Max as an employee without reservation. He is intelligent and can learn things quickly. Please call or email me for further information as needed.

Yours truly,

Dr. David Chalack, President Rocky Mountain Holsteins
